

Ring for spotlight fittings

5905339267207

A family of the Kanlux ARET holders are decorative rings made of aluminium alloy and steel metal sheet. These eyes are without a frame - you decide on your own whether to add the GZ10 or GX5.3 frame to it. It allows adapting the light source to an installation available in a given room. Kanlux ARET works well as additional lighting both at homes, in bars and in restaurants, in places where you want to emphasize an interesting arrangement of a room or to display its fragment.
