Kanlux HB PRO LED HI

The construction effectively reduces the temperature of the luminaire housing and ensures the tightness.

IP
65

The image features a close-up, angled view of a circular LED light fixture. The fixture has a white, multi-layered ring structure with numerous small, yellowish LED chips mounted on it. A black, fan-like structure is visible in the background, partially obscured by the light fixture. The overall composition is split by a diagonal blue line that runs from the top left to the bottom right. The top left corner is a solid blue triangle containing the 'Kanlux' logo. The right side of the image has a light gray, textured background with text.
