Kanlux ERINUS is a unique series of premium stairwaf fittings made of plastic. These luminaires are characterized by exceptional lightness due to the materials from which they were made, and at the same time they are made with great precision and attention to detail. Kanlux ERINUS are very thin, so they flush with the wall line and make it a discreet decoration. We have three colors to choose (white, black and gray), two colors of light (warm and neutral light) and three different models of luminaires. The Kanlux ERINUS L is a square luminaire glowing in one direction, the LL model shines in both directions, and the Kanlux ERINUS O is a round luminaire glowing in one direction.
